Na de install-CD loggen we in via het (tijdelijk) opgegeven IP-Adres

Startscherm zonder inloggen. Hier zie je de basis gegevens

The screenshot displays the Linksys web interface for an NSLU2 device. At the top left is the Linksys logo with the text "A Division of Cisco Systems, Inc." and the firmware version "V2.3R63" at the top right. The main navigation bar includes "Home", "User password", "Administration", "User Guide", and "Linksys Web". Below this, there are links for "User Log in (Private Data)", "USB Port 1 (Public Data)", and "USB Port 2 (Public Data)". The "Status" section is highlighted, showing the following information:

Server Name:	WebTalk
Version:	V2.3R63
IP Address:	192.168.1.140
USB Port 1:	Ready, 469283MB (57% Free)
USB Port 2:	Ready, 469220MB (57% Free)

The Cisco Systems logo is visible in the bottom right corner of the interface.

Instellingen van de Server bij gebruik van verbindingen van buitenaf

The screenshot shows the Linksys web interface for a Network Storage Link for USB 2.0 Disks (NSLU2). The interface is in Dutch and displays the 'System' configuration page. The 'User password' tab is selected, and the 'System' menu item is highlighted. The main content area contains the following settings:

- Enable WINS
WINS Server: [] . [] . [] . []
- Enable Guest Logins
 - Convert failed logins to "guest" logins (Windows networks)
- Enable FTP Server
 - Allow anonymous FTP login ("guest" rights)
- Enable UPnP Support
- Port number for HTTP (Web Browser) connections to this server: [80]
- Password for 'guest' account that is used during no EXT3 disk available: []

At the bottom of the page, there are buttons for 'Save', 'Cancel', 'Restore Default Config', and 'Help'. The Cisco Systems logo is visible in the bottom right corner.

Aanmaken van Mappen op de Server (de Shares)

The screenshot shows the Linksys web interface for managing shares. The top navigation bar includes links for Home, password, Administration, User Guide, and Linksys Web. Below this, a secondary navigation bar contains Groups, Shares, Backup, Disk, Upgrade, and Setup. The main content area is divided into two sections: 'Existing Shares' and 'Properties'.

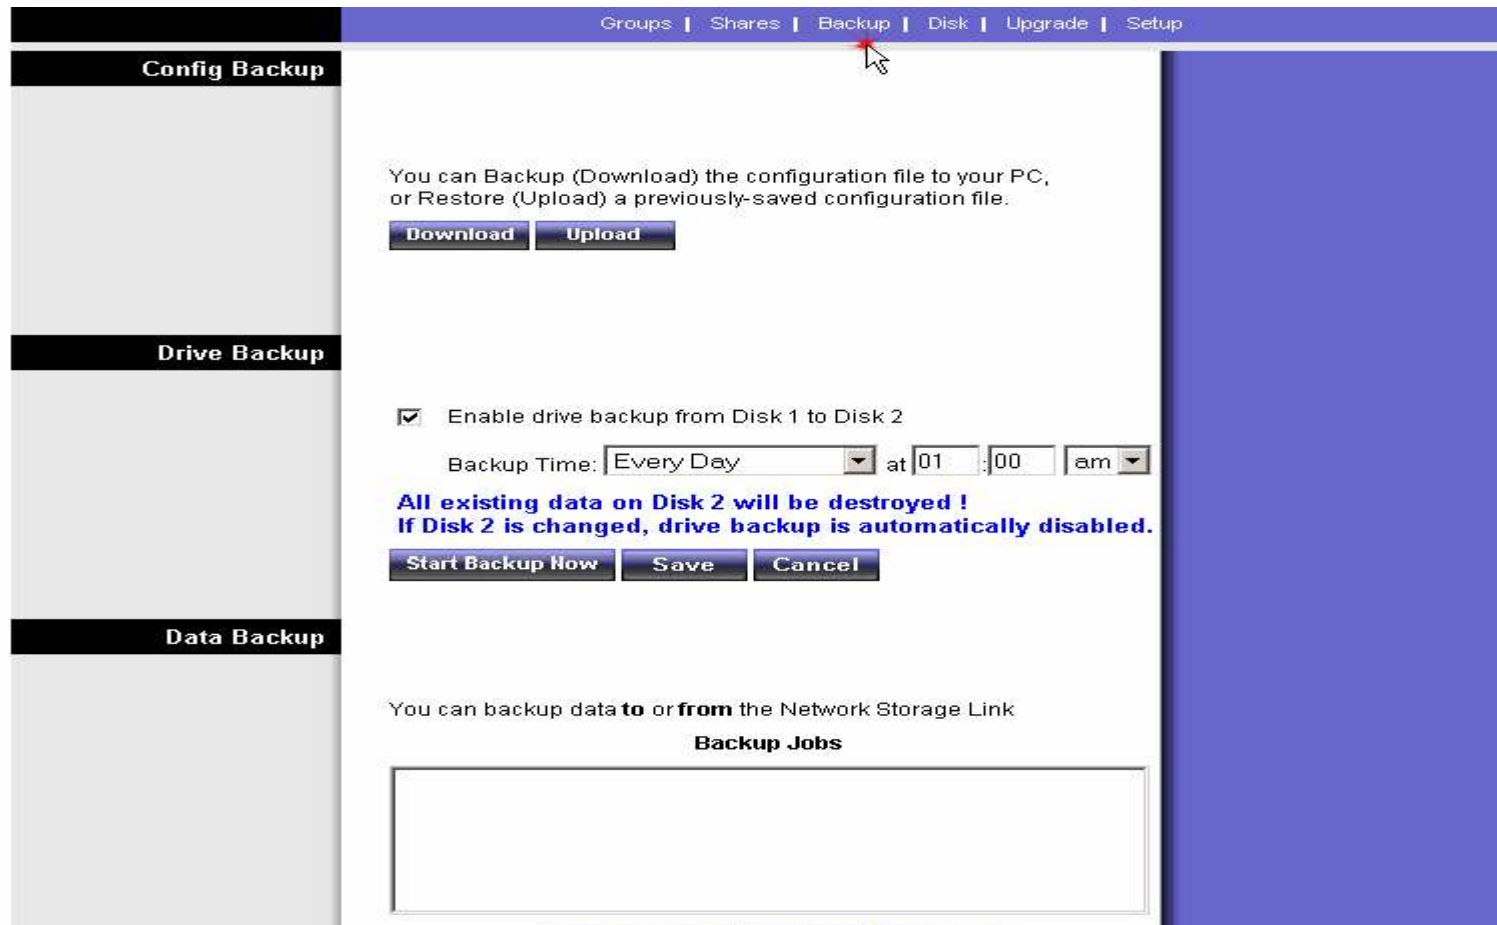

Existing Shares: A list of shares is displayed, including ADMIN 1, DISK 1, webtalk, pictures, surprise4you, and ghost images. The list ends with '----- End of List -----'. Below the list are buttons for Access, Browse, and Delete. A warning message states: "Deleting a Share does NOT delete the folder or files."

Properties: This section contains a form for creating a new share. The fields are: Name (ADMIN 1), Comment (Administrator), Location (Disk 1), and a radio button selection for Default folder (selected) or Specify (with an empty text box). A warning message states: "Location can NOT be changed once share is created." Below the form are buttons for Save as New Share and Clear Form.

At the bottom right of the interface, there is a Cisco Systems logo and a footer with Save and Help buttons.

Gebruiksrechten per Share

Instellingen van het Back-up programma

The screenshot displays a web-based configuration interface for a backup program. The top navigation bar includes links for Groups, Shares, Backup, Disk, Upgrade, and Setup. The main content area is divided into three sections: Config Backup, Drive Backup, and Data Backup.

Config Backup

You can Backup (Download) the configuration file to your PC, or Restore (Upload) a previously-saved configuration file:

[Download](#) [Upload](#)

Drive Backup

Enable drive backup from Disk 1 to Disk 2

Backup Time: at :

**All existing data on Disk 2 will be destroyed !
If Disk 2 is changed, drive backup is automatically disabled.**

[Start Backup Now](#) [Save](#) [Cancel](#)

Data Backup

You can backup data **to** or **from** the Network Storage Link

Backup Jobs

Ook deel back-ups mogelijk

Instellingen van de controle Tool voor de Harde Schijven

The screenshot displays the Linksys administration interface for a Network Storage Link for USB 2.0 Disks (NSLU2). The interface is divided into two main sections: "Format Disk" and "Scandisk".

Format Disk Section:

- Disk 1 Status: Formatted (EXT3)
- Disk 2 Status: Formatted (EXT3)
- Warning: **The format operation will destroy any data on the disk! It should only be used on a newly-installed disk.**
- Buttons: **Format Disk 1** and **Format Disk 2**

Scandisk Section:

- Disk 1 Status: Scandisk completed
- Disk 2 Status: Scandisk completed
- Run Scandisk: Every Day (dropdown), 07 (hour), 00 (minute), am (dropdown)
- Scan: Both (dropdown)
- Warning: **During a Scandisk, the disk cannot be accessed.**
- Buttons: **Start/Stop Disk 1** and **Start/Stop Disk 2**

The interface includes a navigation menu with options like Home, User password, Administration, User Guide, and Linksys Web. A footer contains "Save", "Cancel", "Disk Log", and "Help" buttons, along with the Cisco Systems logo.
